

College Track Program Placement Rubric

Being in the College Track Program means that the senior is committed to meeting all requirements towards a high school diploma and is college bound. The Camelot Guidance Office will assist the senior through the college application process as long as the student remains on the College Track and meets all the requirements to continue in the program. Requirements for program participation are many, varied and ongoing. The following rubric will help determine the student's readiness to enter the College Track Program with the Camelot Guidance Office support.

Rubric Scoring is on a 1-2-3 scale: 1- Unsatisfactory 2 – Satisfactory 3 – Exemplary

If at any time the rubric score falls below the accepted value of 28 which is an average of satisfactory rating, the student will be removed from the College Track Program. The student may continue to pursue college entrance, but without the prescriptive help of the guidance office.

* Students must maintain satisfactory ratings in these areas to receive a diploma regardless of college track placement.

** College Prep projects must be completed and submitted at the time of the Senior Interview. If any item is not sufficiently completed, the Director may hold the student out of school until all items are completed and approved. Any days missed would be counted as unexcused absences on the student's attendance record.
